

EVALUATION INSTRUMENTS

Achievement Tests		
Name of Test	Test Information	Publisher/Website
WJ-III - Woodcock-Johnson Test of Achievement	Measures academic achievement Age: 2 to 90+	www.riverpub.com
WIAT-II – Wechsler Individual Achievement Test	Comprehensive measurement tool for achievement skills assessment Ages: 4 to 85 Grades: PreK - 16	http://pearsonassess.com
KTEA-II - Kaufman Test of Educational Achievement 2 nd ed.	Individually administered assessment of the key academic skills in reading, math, written language, and oral language Ages: 4-6 through 25	http://pearsonassess.com
WRAT-4 – Wide Range Achievement Test-4	Measure of fundamental academic skills Ages: 5 to 90+	www.wspublish.com
KeyMath3	Individually administered measure of essential mathematical concepts and skills Ages: 4-6 to 21-11	http://pearsonassess.com
Intellectual Tests		
WJ-III - Woodcock-Johnson Test of Cognitive Abilities	Measures general intellectual ability and specific cognitive abilities Ages: 2 to 90+	www.riverpub.com
WISC-IV	Assessment of intellectual ability and cognitive processing Ages: 6 to 16-11	http://pearsonassess.com
WISC-IV Integrated	Assessment of a child's capabilities plus the information	http://pearsonassess.com

EVALUATION INSTRUMENTS

	necessary for successful intervention planning Ages: 6 to 16-11	
WNV - Wechsler Non Verbal	Designed for Linguistically Diverse Populations Nonverbal measure of ability for individuals who are neither English-language nor Spanish-language proficient, or have other language considerations. Ages: 4-0 to 21-11	http://pearsonassessments.com
WPPSI-III - Wechsler Preschool & Primary Scale of Intelligence	Measure of intelligence in young children Ages: 2-6 to 7-3	http://pearsonassess.com
KABC-II - Kaufman Assessment Battery for Children, 2 nd ed.	A culturally fair ability test. An individually administered measure of cognitive ability. Ages: 3 to 18	http://pearsonassess.com
DAS-2 - Differential Ability Scales-II	Assessment of cognitive abilities that are important to learning Ages: 2-6 to 18-11	http://pearsonassess.com
Stanford-Binet-5	Individually administered assessment of intelligence and cognitive abilities Ages: 2 to 85+	www.riverpub.com
WPPSI-III - Wechsler Preschool & Primary Scale of Intelligence	Measure of intelligence in young children Ages: 2-6 to 7-3	http://pearsonassess.com
UNIT - Universal Nonverbal Intelligence Test	Assessment of general intelligence, measured nonverbally Ages: 5-0 to 17-11	www.riverpub.com

EVALUATION INSTRUMENTS

LEITER-R - Leiter International Performance Scale-R	Totally Non-Verbal Intelligence & Cognitive Abilities Ages: 2 to 21	www.parinc.com
NNAT - Naglieri Nonverbal Ability Test-individual administration	Measures nonverbal reasoning and general problem solving abilities. Ages: 5 to 17	http://pearsonassessments.com
NEPSY-II	Single measure that allows the clinician to create a tailored assessment across six domains. Ages: 3-0 to 16-11	http://pearsonassessments.com

Assessments for Young Children		
WPPSI-III - Wechsler Preschool & Primary Scale of Intelligence	Measure of intelligence in young children Ages: 2-6 to 7-3	http://pearsonassess.com
DAYC - Developmental Assessment of Young Children	Identify children who may have possible delays in cognition, communication, social-emotional development, physical development, and adaptive behavior. Ages: Birth to 5	http://pearsonassess.com
Bayley Scales of Infant Development-II	Measures the mental, motor, and behavioral development of children who have unusual developmental delays. Ages: 1 month to 42 months	http://pearsonassess.com
ECHOS - Early Childhood Observation System	Web-based progress monitoring assessment tool that delivers an ongoing reflection of learning development and ability in seven domains based on national standards.	http://pearsonassess.com

EVALUATION INSTRUMENTS

	Ages: 3 - 5	
DOCS - Developmental Observation Checklist System	A three-part inventory/checklist system for the assessment of very young children with respect to general development (DC), adjustment behavior (ABC), and parent stress and support (PSSC). Ages: Birth through 6 years	www.proedinc.com
FirstSTep	<i>FirstSTep</i> is sensitive enough to detect even mild developmental delays. Identify children who need in-depth diagnostic testing. Ages: Level 1: 2-9 to 3-8 Level 2: 3-9 to 4-8 Level 3: 4-9 to 6-2	http://pearsonassess.com
ESI-R - Early Screening Inventory-Revise	Brief developmental screening tool for young children Ages: 4-6 to 5-11	http://pearsonassess.com
ESP – Early Screening Profiles	A comprehensive, yet brief, multi-dimensional screening instrument Ages: 2-0 to 6-11	http://pearsonassess.com
Brigance Diagnostic Inventory of Early Development	Criterion-reference assessment measuring: <ul style="list-style-type: none"> • motor skills—fine- and gross-motor • language—receptive and expressive • academic/cognitive—quantitative/general and pre-reading/reading • daily living—self-help and prevocational • social-emotional scales 	http://www.curriculumassociates.com

EVALUATION INSTRUMENTS

	<ul style="list-style-type: none"> • Ages: 2 to 5-1 	
K-SEALS – Kaufmann Survey of Early Academic and Language Skills	<p>Measure of children’s language skills (expressive and receptive vocabulary), numerical skills, and articulation which are important to early school success</p> <p>Ages: 3-0 to 6-11</p>	http://pearsonassess.com
BRIEF-Pre - Behavior Rating Inventory of Executive Functioning-Preschool Version	<p>Standardized measure of executive functioning available for the preschool-aged child.</p> <p>Ages: Preschool</p>	http://www3.parinc.com
TERA-2 – Test of Early Reading Ability	<p>Measure of early reading abilities</p> <p>Ages: 3-6 through 8-6</p>	http://pearsonassess.com

EVALUATION INSTRUMENTS

Items on the GARS-2 are based on the definitions of autism adopted by the Autism Society of America and the <i>Diagnostic and Statistical Manual of Mental Disorders: Fourth Edition-Text Revision</i> (DSM-IV-TR). Ages: 3 through 22	http://pearsonassess.com
ASDS – Asperger Syndrome Diagnostic Scale	Easy-to-use rating scale that can help you determine whether a child has Asperger Syndrome. Ages: 5 through 18	http://pearsonassess.com
CARS – Childhood Autism Rating Scale	Assists in the recognition and classification (degree) of autism. Ages: 2+ years	http://pearsonassess.com
PDDST-II – Pervasive Developmental Disorders Screening Test	Screeener for autism spectrum disorders Ages: 18+ months	http://pearsonassess.com
ASIEP-2 – Autism Screening Instrument for Educational Planning, 2 nd ed.	Provides data on five unique aspects of behavior Ages: 18 mos. through adulthood	http://www.acadcom.com/scripts/prodView.asp?idproduct=956
Supplemental Tests		
CTOPP – Comprehensive Test of Phonological Processing	Measure of phonological awareness, phonological memory, and naming Ages: 5-0 through 24-11	http://pearsonassess.com
WMLS-R – Woodcock-Munoz Language Survey,	Assess level of English Language Proficiency (ELP) & measures cognitive-academic language proficiency	www.riverpub.com

EVALUATION INSTRUMENTS

English/Spanish	(CALP) Ages: 2 to 90+ years	
Woodcock-Johnson Munoz Bateria` III	Provides a comprehensive system for measuring general intellectual ability (including bilingual and low verbal), specific cognitive abilities, scholastic aptitude, oral language, and academic achievement. Ages: 2 to 90+ years	www.riverpub.com
WJ-III Diagnostic Reading Battery	A measure of phonological awareness, phonics knowledge, reading achievement, and related oral language abilities Ages: 2 to 90+ years	www.riverpub.com
BVAT – Bilingual Verbal Ability Tests	Provides a measure of overall verbal ability for bilingual individuals Ages: 5 to adult	www.riverpub.com
TOC – Test of Orthographic Competence	Assesses aspects of the English writing system that are integral to proficient reading and writing Ages: 6-0 through 17-11	www.proedinc.com
TOWRE – Test of Word Reading Efficiency	Measure of word reading accuracy and fluency Ages: 6-0 to 24-11	http://pearsonassess.com
GORT-4 – Gray Oral Reading Test	Provides an efficient and objective measure of growth in oral reading and an aid in the diagnosis of oral reading difficulties. Ages: 6-0 through 18-11	http://pearsonassess.com
Beery VMI – The Beery-	Helps accurately and efficiently assess visual-motor skills	http://pearsonassess.com

EVALUATION INSTRUMENTS

Buktenica Developmental Test of Visual-Motor Integration, 5 th ed.	Ages: 2 to 100	
PAL – Process Assessment of the Learner for Reading & Writing	Can be used to diagnose dysgraphia, dyslexia, oral and written language disability Grades: K through 6	http://pearsonassess.com
TOWL- 4 – Test of Written Language, 4 th ed.	Diagnostic test of written expression Ages: 9-0 to 17-11	http://pearsonassess.com
BRIEF – Behavior Rating Inventory of Executive Function	Parent and teacher questionnaires assess children's executive function in home and school environments. Ages: 5 through 18	http://wpspublish.com
WMS-III – Wechsler Memory Scale-3 rd ed.	Assess adult memory abilities comprehensively and reliably Ages: 16 to 89	http://pearsonassess.com
TEWL-2 – Test of Early Written Language	Assesses basic and contextual writing skills Ages: 4-0 through 10-11	http://pearsonassess.com
TERA-3 – Test of Early Reading Ability	Measure of early reading abilities Ages: 3-6 through 8-6	http://pearsonassess.com
TOMA-2 – Test of Mathematical Abilities-2 nd ed.	Measures math performance on the two traditional major skill areas in math Grades: 3 through 12	www.proedinc.com
TWS-4 – Test of Written Spelling	Norm-referenced spelling test Grades: 1 through 12	http://pearsonassess.com

EVALUATION INSTRUMENTS

KeyMath3	Individually administered measure of essential mathematical concepts and skills Ages: 4-6 to 21-11	http://pearsonassess.com
Vineland-II	Measure of personal and social skills needed for everyday living Ages: 0 through 90	http://pearsonassess.com

**This is not an exhaustive list of testing instruments.
The publisher's websites provide more detailed information on the tests listed,
as well as other instruments available for your specific needs.**
